- Saturday, March 23 Sponsors of the Ellis County Youth Expo
- Saturday, April 6 Kids Against Hunger – Packing Day

Want goMO to join your next event?

Send your sponsorship requests to rhargrove@morganortho.com or call the office.

Go Big with goMO Referral Prize

All of the Morgan Ortho team members danced their way into 2019 by celebrating the biggest referral contest of the 2018-year.

From September 1, until December 31, 2018, anyone who referred a friend to our office had his or her name placed in a drawing for a chance to win a huge prize! Morgan Orthodontics gave away a limited edition PlayStation 4, wireless controllers, wireless headphones AND a \$99 game card!

Over 100 names were entered into our contest and one lucky winner was drawn on New Years Day! Congratulations to Tanner B. for winning our grand prize - thank you for referring your friend Kaelon to our office!

Do you want to win an amazing prize? Refer a friend to Morgan Orthodontics and...it's that easy! Refer a friend and you're automatically entered to win a SMART TV!

A Note From Your Orthodontists -

Did you know that an electric toothbrush with a rotating action reduces plaque and gingivitis more than a standard toothbrush using side-to-side action? We recommend that all of our team members and patients use an Oral B Genius toothbrush for a healthier and brighter smile. Call our office at 972-938-1688 to find out more information about our brushing systems!

-Dr. Morgan & Dr. Trieu

3 Reasons to Rank Braces High on Your New Year Plan

Nintey-five percent of people say the first thing they notice about a person is their smile. A beautiful smile can make or break your first impression. If you've been unhappy with your smile, now is the perfect time to make that change.

The top reasons to rank your smile as a top priority on your to do list is to:

Boost Your Self Confidence-

You've spent years avoiding eye contact during conversation. You've kept your head lowered and away from the center of attention, you've perfected the tight-lipped soft smile in family pictures and you've had enough. Now is the perfect time to gain that priceless self-confidence you've been dreaming of.

Improve Your Oral Health-

Issues with your bite or crooked teeth often means there may be more than aesthetic problems behind your lips. Crowded and crooked teeth more often than not lead to higher rates of cavities, plaque build-up, periodontal disease and tooth loss. Don't risk the future of your oral health by ignoring the signs that are present today. Let our doctors create a personal treatment plan for you.

Keep You Healthier-

Did you know that earaches, stomach pains, headaches, and several chronic diseases including heart disease could be traced to dental problems? With a simple solution like braces or Invisalign, not only can you have a confident, straight, white smile and a healthier mouth, you can also have an overall healthy body. Ask our doctors how a new smile might be your next health regime.

Staff Spotlight: Yaneth M.

Meet Yaneth, Morgan Orthodontics' front desk concierge and newest team member. Yaneth (Jah-Net) has been with the goMO team since October of 2018. Her beautiful smile and personality has brought a wonderful atmosphere to our waiting room and office. Yaneth has worked in the dental

field for over 5 years and in her free time she loves to travel, spend time with her family and watch The Office. Yaneth is the mother of a sweet 3 year-old, Madeline Grace and is happily engaged to her love, Zachary, who works for the Kennedale Fire Department.
